

MEASURING GUIDE

1. Select Panel Quantity

- All DrapeStyle Pricing is Per-Panel.
- Two (2) Panels will make a complete pair.

2. Select Finished Length

Rod-Pocket Panels:	<ol style="list-style-type: none"> 1. Measure from the top of the pole to the floor <ol style="list-style-type: none"> a. Add 1" to this length for poles up to 1" in diameter to accommodate for rod take-up* b. Add 2" to this length for poles from 1' to 2" inches in diameter to accommodate for rod take-up*. 2. Add additional length for Puddling if desired. (See Puddling) <p>* Rod Take-Up refers to the amount of fabric that is required to shirr the fabric on the rod.</p> <ul style="list-style-type: none"> - DrapeStyle's standard rod-pocket is designed to fit up to a 1-1/2" pole. For larger poles please contact a DrapeStyle Designer. - Your selected length will include the 3" pocket and, if selected, a 2" Top-Flange.
Grommet Panels:	<ol style="list-style-type: none"> 1. Measure from the top of the pole to the floor. <ol style="list-style-type: none"> a. Add 1-1/2" to this measurement for Grommet Placement. 2. Add additional length for Puddling if desired. (See Puddling)
Flat Panels + Pleated Panels:	<ol style="list-style-type: none"> 1. Measure from the bottom of the drapery ring to the floor. 2. Add additional length for Puddling if desired. (See Puddling)

3. Select Finished Width

1. Measure the width of your window from outside molding to outside molding.
2. Divide the width by 2 giving you the required width for each panel.
3. Add 6" - 12" to the panel width to provide for overlap.
4. Select proper width from chart below.

Number of Widths:	Flat Panel, Rod-Pocket or Grommet:	Pleated Solid Fabric:	Pleated Striped Fabric:
1	Up to 48" Wide	Up to 26" Wide	Up to 23" Wide
1 1/2	Up to 74" Wide	Up to 36" Wide	Up to 32" Wide
2	Up to 98" Wide	Up to 54" Wide	Up to 46" Wide
2 1/2	Up to 122" Wide	Up to 66" Wide	Up to 60" Wide
3	Up to 145" Wide	Up to 80" Wide	Up to 72" Wide

Notes:

- DrapeStyle "Pattern Matches" pleated drapes when using a striped fabric. This process will provide a more uniform look to the drape but results in a slightly narrower width. These widths are represented the the column labeled "pleated striped fabric".

4. Select Lining

<p>Sateen Lining:</p> <p>"Sateen Lining" is a tightly woven cotton/poly blend resulting in a fine satin finish".</p>	<p>Sateen Lining</p> <ul style="list-style-type: none"> - Provides moderate protection against sunlight damage - Provides improved insulation performance - Adds body and fullness to drapes - Standard on all Linen Drapes
<p>Sateen Lining + Flannel Interlining:</p> <p>"Flannel Interlining" is a heavy-weight cotton flannel fabric".</p>	<p>Sateen Lining + Heavy Flannel Interlining</p> <ul style="list-style-type: none"> - Provides significant protection against sunlight damage - Provides significant insulation performance - Adds body and fullness to drape - Reduces light penetration - Interlining hangs between the sateen lining and drape fabric - Standard on all Silk Drapery
<p>Blackout Lining + Flannel Interlining</p> <p>"Blackout Lining" is a opaque heavy-weight cotton/poly blend which is off-white in color and is impervious to light.</p>	<p>Blackout Lining + Heavy Flannel Interlining</p> <ul style="list-style-type: none"> - Blocks 99% of light - Provides significant insulation performance - Adds body and fullness to drape - Excellent for media rooms and bedrooms - Interlining hangs between the blackout lining and drape fabric - Optional on all Silk Drapery & Linen Drapery
<p>Sateen Lining + Bump Interlining:</p> <p>"Bump" is also referred to as "English Bump" and is a heavy, thick cotton flannel interlining.</p>	<p>Sateen Lining + Bump Interlining</p> <ul style="list-style-type: none"> - Provides excellent protection against sunlight damage - Provides excellent insulation performance - Provides significant body and fullness to drape - Reduces sunlight penetration - Interlining hangs between the sateen lining and drape fabric - Optional on all Silk Drapery & Linen Drapery

Puddling Guide - If you prefer for your drapes to Puddle here are some general guidelines.

Minimal Puddle - Small break in the fabric where it meets the floor.	Add 1" - 3" to your length
Moderate Puddle - More dramatic break with some fabric resting on the floor.	Add 3" - 6" to your length
Opulent Puddle - Generous amount of fabric pooling on the floor.	Add 6" - 8" to your length

DrapeStyle manufacturers all Drapery in our California Studio using only the highest quality materials and processes. All of our natural materials including silk and linen may include some minor natural imperfections and dye-lot variations.
